Hunger Network of Greater Cleveland Pantry Street Guide

(Based on 2013
TIGER™ and 2015
Hunger Network of
Greater Cleveland
Pantry Boundaries)

Northern Ohio Data & Information Service

The Northern Ohio Data & Information Service (NODIS), in the Maxine Goodman Levin College of Urban Affairs at Cleveland State University, has been designated by the State of Ohio and the U.S. Bureau of the Census as the Regional Census Data Center for northern Ohio. It is a repository for U.S. Census information, which it makes available to the community. NODIS also provides data and geographic information systems (GIS) analysis and services, as well as community training and education on using census data and GIS.

NODIS is a non-profit program in the Maxine Goodman Levin College of Urban Affairs that sells street guides at a rate to cover operational costs. This guide is the intellectual property of NODIS and copies made without written consent from NODIS are strictly prohibited. For multiple copies of street guides, please order directly from NODIS.

**This Hunger Network of Greater Cleveland Pantry Street Guide is based on the TIGER™ database obtained from the US Bureau of the Census. NODIS claims no responsibility for completeness/correctness of data contained herein.*

For more information about NODIS services contact us:

How to Use the Hunger Network of Greater Cleveland Pantry Street Guide

This guide allows users to find the appropriate Hunger Network of Greater Cleveland food pantry for street addresses in the areas served by the Hunger Network pantries. The Street Guide is based on the 2013 TIGER™ database, which is updated every year by the U.S. Census Bureau.¹ Data used include: street number, street name, and city for all addresses in a given area. Although the Census Bureau tries to include every address, the Bureau may have missed some in the development of the database. The Census Bureau continues to correct errors/missing data as they are discovered and changes/additions are reflected with each new release of the Census TIGER™ data.

Steps

The following is a sample record from the Guide:

STREET	STREET NUMBER =====>			CITY	PANTRY
1st Ave	1	199	B	Bedford	30

- 1) The Guide is arranged with streets (and then city) listed in alphabetical order within the region.

To find the assigned pantry for an address, first find the street name in the Guide.

- 2) After finding the correct street name (including proper suffix – e.g. road, avenue, circle, etc.)...

Find the street number range to which the address belongs.

- a. If the house number is an **even number** (2, 1104, 20618, etc.), find the correct range that has even numbers at both the beginning and the end of the range.
- b. If the house number is an **odd number** (1, 213, 11537, etc.), find the correct range which has odd numbers at both the beginning and end of the range.
- c. If the address falls within a range in the Guide that includes **both even and odd** house numbers (e.g. 2 – 99 or 1 – 98) or there is a 'B' in the column next to the range, the pantry applies to **both even and odd** numbered sides of the street.

¹ TIGER™ data include selected geographic and cartographic information from the Census Bureau's Topologically Integrated Geographic Encoding and Referencing database.

- d. 'All' in the street number range indicates that any address found for that street in that city is in the pantry listed.
- e. Make sure that you are looking at the **correct city**, as some streets and addresses are found in more than one city.
- f. The pantry name associated with the pantry code number listed in the street table is found in the Pantry Name and Code Correspondence Table in the following pages.

Pantry Name and Code Correspondence Table

Code	Pantry Name
1	Lakewood Community Services Center
2	St. Paul AME
3	Blessed Trinity - Bountiful Basement
